

When Was the Last Time You LOST WEIGHT... I mean, Really lost weight?

Medical studies confirm it may not be too late! Once dismissed as mere “folk legend”: Apple Cider Vinegar has been found to produce dramatic results. Especially for those who must lose weight or suffer serious health risks. Now an important new fusion of natural compounds has been added.

Could This Be The Most Powerful **ANTIDOTE To Unwanted Weight Ever Created?**

Hobart, IN (Staff Writer) –

In a bizarre twist of events, traditional herbal folklore was fused with high-tech nutraceutical science. A little company out of Hobart, Indiana took traditional Apple Cider Vinegar and fused it with a proprietary meld of state-of-the-art compounds. What happened next shocked the scientific community. We were actually able to stop a percentage of fat absorption in the body—turning fat cells into 100% pure energy” said Brian Minogue VP of Botanic Health.

THE RESULT: Dramatic weight-loss of up to 20, 60...even 80 pounds of fat... backed by nothing more than a sensible eating and exercise plan.

Each ACV-Plus Tablet Is Saturated With Over 600 Mg. of Pure, Calorie-Burning Apple Cider Vinegar. It’s reported that with **ACV-Plus**, your body will retain less fat. And could give a noticeable increase to your metabolic rate to burn the existing fat cells out of your body.

ACV Plus creates a harmonious pH balance in the body. This stability between acidity and alkalinity is essential in efficient weight loss management. The combination of nutrients includes valuable trace elements and enzymes that are beneficial to overall health and well-being.

ACV Plus supports a healthy cardiovascular system, assisting users in any exercise program used to support the weight loss effort.

Apple Cider Vinegar in its raw form can cause tooth enamel damage. But in this refined formula, **ACV Plus** does no damage to your teeth, so you can continue to use it to achieve desired weight reduction.

5 Key Compounds Produce Breakthrough Results

1. **Apple Cider Vinegar** has a long history, well-known for its astonishing health properties. But now, **ACV Plus** fuses it with a special blend of powerful nutrients that supercharge health and remarkable weight loss.
2. **Bromelain**, derived from the pineapple plant, breaks down proteins in food to help the digestion process of the nutrients found in the diet.
3. **Cayenne** is often used topically to relieve arthritic and rheumatic pain, and is often used in the treatment of obesity when taken internally.
4. **Citrin**, (Hydroxycitric Acid) is similar in chemical composition to citric acid. Research suggests Citrin reduces the conversion of carbs into stored fat by inhibiting some enzyme processes. This is a key to weight reduction.
5. **Ginger** has been used for more than 2,500 years in traditional Chinese medicine to reduce that “bloated” feeling. It also supports cardiovascular health by making blood platelets less sticky and therefore less likely to clog.

A Powerful Weight Control Solution

Apple Cider Vinegar breaks down fat and transforms it into vital energy. Trace elements not only include potassium, calcium, sodium iron and more. But some tests indicate it contains more than 90 beneficial substances.

It is this unique combination that makes **Apple Cider Vinegar PLUS** so effective, so trusted, so healthy.

There is no bitter taste in **ACV Plus**, so people use it every day to help them battle the bulge and lose weight from all the trouble areas. Read the following testimonials to see.
